

AFRWC Staff Addition Notice

Date: July 29th, 2024

Dear AFRWC Member,

It is with great pleasure that the AFRWC board members announce the hiring of Mr. Owen Bennett and Mr. Daniel Perri as Project Assistants, effective June 17th and July 23rd, respectively.

Owen is a recent graduate from Grant MacEwan University with a Bachelor of Commerce specializing in Supply Chain Management and Business Intelligence. Owen's previous experience includes sales and inventory management at Fastenal, operations administration at Caron Transportation, and sports data analytics at Sporting Group.

Daniel is a recent graduate from the University of Alberta with a Bachelor of Arts specializing in History. Daniel's recent job history includes work with MAP Water and Sewer services, where he gained experience working with underground excavation, water lines, wastewater lines, and chlorine testing.

As we enter a new era of growth at AFRWC, we are thrilled to have these two talented individuals join the team. If you haven't already had the opportunity to meet Owen or Daniel, you likely will soon as they begin travelling Alberta and visiting each of our members' co-ops. In their site visits to your co-ops, Owen and Daniel are working on our current study, in which we are creating a report to inform the provincial government about the status of the rural Alberta water systems and the challenges we face. They will also be looking for innovations and the best solutions that have been used to improve our systems.

Sincerely,

Chris Hancock

Executive Director

Alberta Federation of Rural Water Coops
